The Jersey Charity Awards 2023

About the Jersey Charity Awards

The Jersey Charity Awards have been running since 2011 and are all about highlighting professionalism and excellence within the local charitable sector, recognising and celebrating charities' recent achievements and best practice, thus raising the profile of charitable and voluntary activity in Jersey.

This year we are hoping charities will pay particular attention to issues that have and are still affecting all of us, by demonstrating their response to managing and overcoming adversity, such as the economic down turn, tackling climate change, championing health and wellbeing, and collaborating with other charities on these and other issues.

Who are the awards open to?

Any registered charity based in Jersey may enter the awards, whether they operate within Jersey or overseas.

Judging

The awards will be decided by an independent panel of judges, who will be looking for examples of excellence, together with ideas and leadership that will inspire and from which others can learn.

The awards are also to honour professionals and volunteers who manage charities, to recognise and promote best practice and to encourage continuing professional development.

Some examples of achievements could be:

- Innovative website development, or a rebrand that's significantly improved your marketing reach and uptake of services
- Undertaking a change management process, or a restructuring of services that's allowed you to further develop and expand
- Development of your volunteering infrastructure programme
- Implementing a budgeting system or process, devising an annual operational budget or cost savings through the use of volunteers or 'gifts in kind'
- Outstanding leadership demonstrated by a volunteer, or staff member, possibly even during a period of adversity or unprecedented change
- Development of your social media that has allowed you to reach a new target audience, increase donations and/or a different audience
- Production of your first or most outstanding annual report
- Undertaking an innovative campaign to raise awareness about an issue or boost fundraising efforts
- Putting a structure in place for upskilling a team

One of the benefits of the Charity Awards is the potential for organisations to learn from each other's experiences. The organisers therefore reserve the right to use information relating to shortlisted entries for publicity and educational purposes. The judges reserve the right to reallocate any entry to a different category. The organisers reserve the right to change the venue and date for the awards' ceremony entirely at their discretion. The judges' decisions are final.

The Judges

The judges are an independent panel of experts who themselves have devoted many voluntary hours, expertise and commitment to the not for profit sector.
